

M-Audits Success Stories

Out-of-Network Claim – A plan administrator asked **M-Audits** to perform a financial and clinical review of an out-of-network claim totaling \$810,447.17. **M-Audits** negotiated a 35% reduction in the claim, **saving the plan \$283,628.99**. In addition, **M-Audits** negotiated so that the plan participant was not balance billed.

In-Network Claim, Financial Review – **M-Audits** performed a financial review of an in-network claim totaling \$834,530.04. After the **M-Audits** review of the UB-92 Itemization, the facility accepted the audit results, **saving the plan \$210,883.25** over the PPO discount. The facility agreed not to balance bill the patient or their estate.

In-Network Claim, Clinical Review – A patient came into the ER with fever and cough and was diagnosed as having Septic Shock. The treating physician ordered a recently approved FDA medication, but the patient never received the dose. The total billed charges were \$49,321.38 and **M-Audits** negotiated a **\$10,775 savings** for the plan.
